

Supply Chain Mavens Inc.

In conjunction with the ASCM Richmond Forum

Empowering People, Productivity & Profits
An ASCM Premier Elite Channel Partner since 2021

is offering the Online or On-Premise Instructor-led CPIM 8.0 throughout 2023!

Scope: ASCM's Certified in Planning and Inventory Management (CPIM) workshop provides a comprehensive body of knowledge, best practices and standards to allow candidates to better respond to supply disruptions, respond to demand variations and manage supply chain risk. Earning a CPIM demonstrates mastery of an organization's internal operations and an in-depth understanding of materials management, master scheduling, forecasting, production planning, technology and how it applies across the extended supply chain.

Who Should Attend? Operations newcomers, Lean, Six Sigma or supply chain professionals, and those seeking to advance into management roles should take this course. Anyone active in daily management of production planning, purchasing, logistics, or operations will bring home proven techniques to eliminate non-value-added activities, reduce costs and inventories, shorten cycle times, and improve Customer Service.
